Subject: replacement window installation

Although this is somewhat belated, I did want to be sure to tell you about the positive experience I had with your workmen. While everyone who came here did very well, I was especially impressed with Daniel Tapia's supervision of the crew.

The two workers (whose names I regret I do not remember) who installed the fiberglass french door were equally skilled, professional and pleasant.

Thanks. This was our second experience with your company. I have no hesitation about recommending Newman Replacement Windows.
